ACCENAME BE-21 Erdbeere von Urtenen-Sch_nbªhl

Fragaria-x ananassa-0-102040

Family (Rosaceae) — Genus (Fragaria) Species (x ananassa) Subspecies ()
Category: berries → strawberry

Etat de conservation de la variété (The conservation state of the variety on the positive list indicates the evaluation in the NPA yes = The variety is conserved. no = The variety is conserved.) : Varconservstat (yes)

ACCESSION : Field description	Value	Field name(s)
Institute code	ProSpecieRara, Deutsche Schweiz	INSTCODE
Accession number	44726	ACCENUMB
Collecting institute code		COLLCODE
Acquisition date	2008	ACQDATE
Country of origin	Switzerland	ORIGCTY
Donor institute code		DONORCODE
Type of germplasm storage	Field collection	STORAGE

VARIETY :Field description	Value	Field name(s)
